

ASSEMBLY INSTRUCTIONS

Item no.: WM101

Item name.: Wheel & Tire Rack on Wheels

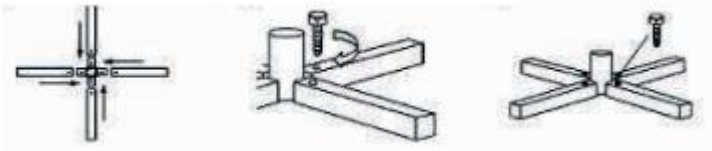

Parts included:

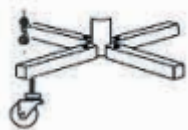

1. Center pipe
2. Spacers
3. Feet/ edge profiles
4. Cross foot
5. Spacers
6. Screws
7. Wheels

ASSEMBLY INSTRUCTIONS

1. Screw the cross foot and the 4 feet/rectangular profiles together with the included screws.

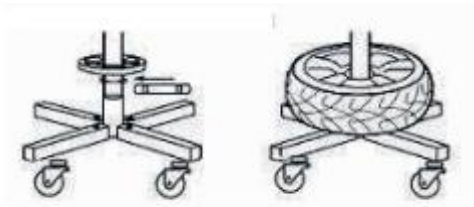

2. Mount the wheels on the feet/free edge profiles

3. Put the two parts for the center tube together and install the tube cross foot.

4. Insert a split into the lower hole of the center tube and place one off the spacer rings so that it rests on the split. Put the first one tires in place.

5. Then put another split and spacer ring next hole in the center tube and place the second tire in place. Continue in the same way for the remaining tires.
